FitWorks Classes

CARDIO STRENGTH:

Want a full body work out with pain free exercises? This class focuses on whole body strength and cardio exercises to help maintain and increase current health and fitness levels.

FELDENKRAIS:

Engage in precisely structured movements that involve thinking, sensing, and imagining. Each lesson consists of easy movements that gradually evolve to incorporate a greater range of motion and complexity.

H.I.I.T:

This fast-paced, high intensity interval class combines vigorous bursts of functional movement (like squats and lunges) with short rests or slower paced activity. H.I.I.T. training boosts your metabolism, strengthens your heart and builds muscular fitness.

PILATES:

The Pilates method seeks to develop controlled movement from a strong core. Pilates focuses on developing the deep stabilizing muscles of the torso and strengthening core abdominal and back muscles.

ROWING FITNESS:

Rowing Fitness focuses on the fundamentals of the rowing stroke and body movement to engage a full body motion. Rowing is non impact and great crossover training, especially if you are working out an injury and want to avoid impact activity. We will also incorporate off Erg workouts to help stabilizing muscles and flexibility. Rowing is one of the most full body movements and done correctly can be a great addition to overall muscle stability.

SLOW FLOW YOGA:

Slow flow yoga is a creative, therapeutic flow designed to bring balance to the body and mind through holding poses. When we slow down and relax the nervous system, we focus on our breath and you become stronger mentally and physically. Slow flow yoga practice is designed for anyone new to yoga or looking to get back to the basics.

STRETCH, ROLL, & RELEASE:

Increase range of motion and flexibility, decrease muscle stiffness, improve balance, relieve joint pains, release trigger points and minimize aching/tight muscles by using your own body weight, breath work and tools like the resistance band, foam roller and balls.

SUNRISE CIRCUIT:

A guided cardio and strength conditioning class designed for a full body workout. All fitness levels welcome.

YOGA and YOGA & THE BREATH:

Learn to stretch, strengthen, balance and become more flexible through Asana's (postures) and the breath in a gentle manner.

Covid-19 PROTOCOLS

Please visit www.bcrd.org/fitworks.php for up-to-date information on the FitWorks Covid-19 protocols.

We are limiting class sizes to allow for 6 feet of distancing between participants. Classes will be on a first come first serve basis.

Please bring your own mat, towel, and water bottle.
